

Promote: Women in the Economy (WIE)
Workforce Development Component
INDIVIDUAL REGISTRATION FORM

About WIE:

The Promote: Women in the Economy (WIE) program empowers educated Afghan women from across the country to gain the skills, voices, and resources to contribute to economic growth, reduce poverty levels, and influence workplace policies in response to the needs of women. It does this through improving the growth of women-owned businesses and businesses with a 10 percent or greater female workforce, helping place female job seekers in jobs and partnering with local educational, vocational, and technical training providers to offer workplace skills development, career counseling, internships, and career development assistance to educated women between the ages of 18 and 30.

Purpose:

WIE needs information from prospective participants in order to determine what types of services and assistance to provide. Your answers will be confidential and treated with the utmost care to protect your security. Honesty and accuracy is essential to helping our program support you, so please carefully consider your response before giving an answer.
